

NOMID Alliance 2008 Annual Report

The NOMID Alliance is a 501 (c)(3) non-profit public charity founded in 2006 dedicated to promoting awareness, proper diagnosis and treatment, and improved care for people with CAPS (Cryopyrin-Associated Periodic Syndromes). CAPS is caused by a rare mutation of the *CIAS1* gene in the cryopyrin inflammasome. These CAPS syndromes include: Neonatal-Onset Multisystem Inflammatory Disease (NOMID)-also known as Chronic, Infantile, Neurological, Cutaneous and Articular Syndrome (CINCA), Muckle-Wells (MWS), and Familial Cold Autoinflammatory Syndrome (FCAS)-also known as Familial Cold Urticaria (FCU).

This year was one of great growth and increased awareness about Cryopyrin-Associated Periodic Syndromes (CAPS) worldwide. The NOMID Alliance was pleased to be able to print and distribute the CAPS medical guidebook starting in March 2008 to patients, doctors and researchers worldwide. The first printing of 5,000 copies of the CAPS guidebook was distributed by July of 2008, and a second printing was done in August 2008 due to great demand. The booklet is also available online as a downloadable pdf on our website at:

The NOMID Alliance had the opportunity to have a poster presentation with the distribution of the CAPS guidebook at the FMFSAID2008 Congress in Rome, Italy in April 2008. This is the leading conference for doctors and specialists studying periodic fever syndromes and other autoinflammatory disorders in the world. One of our board members, Dorelia Rivera was able to attend to represent The NOMID Alliance, and kindly used some of her United Airlines employee vouchers to cover the travel costs. Dori did a wonderful job introducing our non-profit to the leading researchers in the world that deal with CAPS, and was able to share our CAPS guidebook with them at this important conference.

In the spring of 2008, the Griffin family from Missouri held a fundraiser on their children's birthday to benefit The NOMID Alliance, and raised over \$500, and also had an informative

poster display to teach people about CAPS. This family also had a fundraiser in 2007, and have collected over \$1000 for The NOMID Alliance in the past two years! A special thanks to Keiran and Chloe Griffin and their family for their support and generosity to choose to benefit The NOMID Alliance on their birthday. Seth Durrant of San Francisco was inspired to have a similar fundraiser at his 9th birthday in September of 2008 to benefit The NOMID Alliance, and raised over \$200. Jan da Prato also had a fundraiser in honor of her son, Zach that raised \$155 and both Jan and the Griffin family helped raise CAPS awareness in Missouri.

There were a few very special family fundraisers benefitting The NOMID Alliance this year in honor of loved ones that had passed away in 2008. The family of James W. Smith of Alvaton, KY chose The NOMID Alliance as one of the charities that friends and loved ones could donate to in honor of this wonderful man. The family of Anne Marie Mallais (nee Vienneau) of Dalhousie, New Brunswick, Canada also chose The NOMID Alliance to receive donations in the honor of Anne Marie, a patient with FCAS (a form of CAPS) that had championed awareness efforts in Canada for many years. We cannot thank these families enough for their caring during a time of great sadness and loss of such wonderful loved ones.

In October 2008, our organization had a booth at the American College of Rheumatology Conference in San Francisco, CA to increase awareness about CAPS, and about our organization to Rheumatologists from all around the world. We made a lot of contacts with doctors, and hundreds of doctors visited our booth each day, and many had little or no knowledge about CAPS.

In November of 2008, Earnhart + Friends in Bowling Green, KY sponsored an amazing fundraiser benefitting The NOMID Alliance, orchestrated by board member Jennifer Earnhart and her family. They collected artwork from artists from all over the country, and art pieces made by CAPS patients for the auction, and raised over \$5000! It was a very lovely evening, and the Earnhart's did an incredible job educating the public about CAPS, and also fundraising for our non-profit.

The NOMID Alliance is thankful for the unrestricted grant from Regeneron Pharmaceuticals in 2007 to help fund the first printing and production of the CAPS guidebook. In addition, Earnhart + Friends and Liberty Group donated services and printing ink to for the first printing of the CAPS booklet, which helped us to have enough money to have a larger printing of the guidebook than originally planned.

The NOMID Alliance has been contacted by many patients since the CAPS guidebook was first distributed. These patients have found it very helpful, and it has validated their condition and allowed them to have a way to teach others about their rare condition. A few patients have found the website and booklet online, shared the information with their doctor and have since been diagnosed with CAPS after years of misdiagnosis for their symptoms.

We have also seen an increase in earlier diagnosis of pediatric patients in the past year due to more awareness of CAPS by doctors, but also through our website and CAPS booklet. Many families with CAPS requested the booklet to distribute to hospitals in their area, and Karen Atkinson and her family in Canada sent copies of the booklet to all the pediatric hospitals in Canada, and shared it with the Canadian Organization of Rare Disorders (CORD.) This has helped more patients in Canada, and their efforts are an inspiration to us all.

Thank you to our generous donors that have contributed to The NOMID Alliance in 2008, which include:
